MEMORANDUM ON THE OBJECTS OF THE PUBLIC SERVICE COMMISSION BILL, 2023

1. INTRODUCTION

- 1.1. The Public Service Commission (Commission) is an independent body established in terms of Chapter 10 of the Constitution of the Republic of South Africa, 1996 (“the Constitution”). The Constitution links the Commission’s independence firmly with its impartiality and provides that no organ of state may interfere with the functioning of the Commission.
- 1.2. The Commission derives its mandate from sections 195 and 196 of the Constitution, which vest it with the custodian oversight responsibilities in the interest of the maintenance of effective and efficient public administration and a high standard of professional ethics in the public service.
- 1.3. Section 196(2) of the Constitution provides that the Commission must be regulated by national legislation. Section 196(9) of the Constitution provides that an Act of Parliament must regulate the procedure for the appointment of commissioners.
- 1.4. A business case and a socio-economic impact assessment was prepared in light of the view expressed in the National Development Plan (page 412) which indicates the following in respect of the Commission:
“The Office of the Public Service Commission, which is the administrative arm of the PSC, is partially dependent on the executive for the appointment of its Director-General and the allocation of its budget. This provides some important benefits including the scope to participate in the Governance and Administration Cluster; but there is also the potential for these links to compromise the PSC’s independence. These are issues that may need to be reflected on going forward.”
- 1.5. The National Development Plan (NDP) further noted that there is potential for the Commission’s status as a Public Service Department to compromise its independence as the employees of the Commission tend to have vested interest on some of the issues that they should be having an oversight on.
- 1.6. Parliament took a resolution, on 15 November 2011, that the Commission must report on the implementation of section 195(1) of the Constitution by the administration of all spheres of government, organs of state and the public enterprises in South Africa, every year. The report of the Commission should be contained in the annual report of the entity that the Commission is reporting on every year. The Commission seeks to give effect to the Parliamentary Resolution in piloting the enactment of the Public Service Commission Bill, 2023 (“Bill”).
- 1.7. The Bill gives effect to section 196 of the Constitution in the establishment of the Commission Secretariat, through a function shift from a National Department to the Secretariat. The removal of Commission from the Public Service Act, 1994, seeks to strengthen the independence of the Commission as a constitutional institution. This will assist the Commission with better client and stakeholder management, as it removes the possible perception of conflict of interest with its administration staff in the Secretariat.
- 1.8. The mandate of the Commission will be implemented within the public service and public administration to include municipalities, their entities, national and provincial departments and public entities.
- 1.9. The extension of the implementation of the Commission mandate to local government and public entities accords with the Constitution and enhances the oversight role of the Commission with respect to—
 - the proper implementation of people management practices within the public service and public administration; and

- the professionalisation of the public service in the achievement of a capable and ethical public service.

2. OBJECTS OF BILL

- 2.1. The objects of the Bill are the following:
- To repeal the Public Service Commission Act, 1997, and to promulgate a new Public Service Commission Act that will regulate the Public Service Commission in accordance with the provisions of section 196 of the Constitution;
 - to regulate the process for the appointment of commissioners of the Commission;
 - to provide for the establishment of the Secretariat of the Commission. The Office of the Public Service Commission, which supports the Commission, is defined as a department in schedule 1 to the Public Service Act, 1994. The Bill seeks to establish the administrative support of the Commission as a Secretariat led by a Chief Executive Officer that reports directly to the Commission;
 - to provide for the Commission to fulfil its constitutional mandate in respect of local government and public entities; and
 - to provide for matters incidental thereto.
- 2.2. The first priority of the sixth administration relates to building an ethical, value-driven capable, competent and developmental state. The Bill seeks to achieve the Government's objective of building a capable and ethical public service and public administration with the achievement of certainty in the full implementation of the powers and mandates of the Commission as stated in section 195 and 196 of the Constitution.
- 2.3. The Honourable President announced that service delivery would be focused at the district level of the municipalities. The Commission will focus on the district service delivery model as part of the response to the needs of Government in promoting the professionalisation of the public service and public administration. In doing so, the Commission will be responding to the needs of a developmental state.
- 2.4. The Commission will support the municipalities in line with section 154(1) of the Constitution of 1996, in the achievement of the President's directive as stated in the State of the Nation Address of 2023, as follows:
- “Government is implementing a number of interventions to address failures at local government level and improve basic service delivery.*
- These include enhancing the capacity of public representatives and officials, maintaining and upgrading local infrastructure, and invoking the powers of national government to intervene where municipalities fail to meet their responsibilities.*
- {A professional public service, staffed by skilled, committed and ethical people, is critical to an effective state and ending corruption, patronage and wastage.*
- In response to the State Capture Commission and in line with the framework for the professionalisation of the public service, integrity assessments will become a mandatory requirement for recruitment to the public service and entry exams will be introduced.*
- We are amending legislation and strengthening the role of the Public Service Commission to ensure that qualified people are appointed to senior management positions and to move towards creating a single, harmonized public service”.*
- 2.5. The Bill will ensure that the Commission is able to execute its mandate without fear, favour, bias or interference, as the custodian of good governance and the promotion of ethical governance in line with the government priority objectives.

- 2.6. The Bill will improve the Commission's ability in responding to the problems of corruption which seems to be one of the challenges identified in the Report of the Commission of Inquiry into Allegations of State Capture, Corruption and Fraud in the Public Sector Including organs of State, headed Justice Zondo. The Commission's focus on issues related to corruption and integrity will be done across the public administration and not just for the public service. The Commission will continue to manage the dedicated National Anti-Corruption Hotline (NACH) and undertake full-scale investigations and own initiated complaint management across the public administration, inclusive of the public service.
- 2.7. The Commission independence will be enhanced with a clear public administration mandate and well-positioned as a Constitutional Institution reporting to Parliament. This will result in the improvement of the Legislative arm of Government's oversight on the Executive arm, with the assistance of the Commission's reports.

3. CONTENT OF THE BILL

- 3.1. Clause 1 seeks to provide clarity on the terminology used in the Bill. The definitions of "local government", "municipality", "public entity", "public administration", "Secretariat", and "Commission bargaining forum" are provided.
- 3.2. Clause 2 deals with application of the Act, and states that it applies to administration of the public service and public administration.
- 3.3. Clause 3 deals with the constitution of the Commission which is made up of 14 commissioners appointed by the President.
- 3.4. Clause 4 deals with the appointment of commissioners who must be fit and proper persons in line with section 196(10) of the Constitution, aligned to the constitutional provisions in section 196(7) and 196(8). There are five commissioners at the national level and one (1) commissioner for each province. The President appoints the commissioners based on the recommendation of Parliament or the relevant provincial legislature and Premier.
- 3.5. The clause seeks to assist with synergising the process of appointment of Commissioners by introducing recommended NQF level 8 qualifications and experience of at least eight to ten years in the relevant fields. This is to ensure that the commissioners are professional and appropriately skilled to deliver on the mandate of the Commission, within the professionalisation of the public service framework.
- 3.6. An oath of office or solemn affirmation before a Judge President of the relevant division of the High Court, or other judge, is introduced in schedule 1 to the Bill to ensure that commissioners commit to and understand their role in defending the Constitution, and promote high ethical values.
- 3.7. Clause 5 clause deals with disqualification from appointment as Commissioners in line with the Constitutional provisions, resignation and vacation of Office of Commissioners.
- 3.8. Clause 6 deals with the provision relating to renewal of the commissioners' term of office and the designation of an acting chairperson or deputy chairperson in line with the PSC Amendment Act of 2019. The term of office is five years renewable for a further five years. A commissioner must remain a fit and proper person and having maintained a satisfactory level of performance in relation to his or her duties for the term to be renewable for an additional term of office of five years.
- 3.9. In terms of the clause a commissioner must not be a member of a structure of any political party or political organization. A commissioner must not take

on additional work while they are appointed as commissioners except if they have obtained the permission from the Honourable President. A commissioner may be removed from office on account of misconduct, incapacity or incompetence.

- 3.10. Clause 7 provides for the President to designate a chairperson and deputy chairperson for the Commission. The clause also deals with designation of an acting chairperson or deputy chairperson should the chairperson and the deputy chairperson be out of the office or are unable to act.
- 3.11. This clause is in line with clause 7(3) of the PSC Amendment Act, 2019, which stated that, “if both the chairperson and the deputy chairperson are absent, or for any reason unable to act as chairperson, the President shall designate one commissioner to act as the chairperson of the Commission for a period not exceeding 30 days”.
- 3.12. This is to ensure that there is a designation of a commissioner when both the chairperson and deputy chairperson are out of the office, and to ensure that the process is monitored after every 30 days to determine an appropriate measure.
- 3.13. Clause 8 provides that the remuneration of the commissioners shall be determined by the President, from time to time, by notice in the *Gazette*, after taking into account the recommendations of the Independent Commission for Public Office Bearers. It is important to move away from aligning the salaries of commissioners to what a Director-General in the public service earns, as this tends to confuse the commissioners to be officials.
- 3.14. The Independent Commission for Remuneration of the Public Office Bearers must, when considering the remuneration of commissioners consult with the Cabinet member responsible for Finance.
- 3.15. A different salary level may be recommended for the Chairperson and the Deputy Chairperson. Clause 8(6) states of the Commission, that the Commissioners remuneration may not be reduced and the conditions of appointment may not be adversely altered during a Commissioner’s term of office, including any renewal thereof.
- 3.16. Clause 9 provides that the Commission may conduct inspections either physically or through inspection of documents and may request to be provided with information which the departments and public institutions within public administration are obliged to submit.
- 3.17. Clause 10 provides that the Commission is empowered to conduct investigations within departments, other organisational components in the public service and public administration. The Commission must have access to relevant documents that will assist it in the performance of its functions, including at the local government and public entity.
- 3.18. This clause also deals with grievances of employees in public entities and municipalities.
- 3.19. Clause 11 provides for the Commission to conduct inquiries as part of its information gathering processes, summons witnesses and request for documents to be presented before it in relation to a department, public entity or local government, taking into account the applicable laws and its Rules for issuance of summons.
- 3.20. Clause 12 provides for the report of the Commission in relation to an investigation or grievance to be made available to affected parties once the report is finalised and submitted to the relevant executive authority. An investigation report may also be provided with the permission of such other

person or persons as the case may be and certain information may be severed from part of the report or part relating to any other person.

- 3.21. Clause 13 provides that a department, public entity or a municipality that receives a report of the Commission directing it to act in a particular way under a particular law, must respond by providing the Commission with the plan of action in implementing the advice, directions or recommendations of the Commission within 60 days or within such shorter period or longer as may be stated by the Commission in the relevant report.
- 3.22. Should the executive authority not be able to implement the decision due to good reasons, he or she must revert back to the Commission with reasons or take the Commission's report on review in court where there is a good reason to do so. This provision is applicable to the Mayor and the Executive Council of a Municipality and the Executive Authorities, Chairpersons, boards or Chief Executive Officer of the public entity.
- 3.23. Clause 14 provides that a commissioner as well as a member of staff as contemplated in clause 16 must act independently and without fair or favour in the implementation of the Commission's mandate. This clause further prohibits an employee of the Commission's Secretariat or a commissioner from rendering assistance in any matter in which the employee or a commissioner might have a vested interest.
- 3.24. Clause 15 deals with the obstruction of the Commission in the exercise of its powers or the performance of its functions. Any person found guilty of obstructing the Commission is guilty of an offence and liable on conviction to imprisonment of up to 12 months or a fine of up to R50 000.00.
- 3.25. Clause 16 deals with the establishment of the Secretariat of the Commission to provide the administrative and technical support to the Commission. The employees of the Office of the Public Service Commission are deemed to be appointed into the Commission's Secretariat. Their service conditions are transferred to the Secretariat through a function shift. The Secretariat is headed by a Chief Executive Officer responsible for the management of the affairs of the Commission and appointed by the Commission. The Chief Executive Officer is accountable to the Chairperson of the Commission and the Commission.
- 3.26. Clause 17 provides for the Commission to delegate its powers to any committee or committees of one or more commissioners on such conditions and terms as the Commission may determine. The Commission may not delegate its powers to make Rules. The Commission is further not divested of any power by virtue of any delegation.
- 3.27. Clause 18 deals with the finances and accountability of the Commission. In terms of the clause, the Chairperson is the executing authority of the Commission. The budget for the Commission is to be appropriated through monies appropriated by Parliament in respect of the Commission as a constitutional institution.
- 3.28. The Chief Executive Officer is the accounting officer for the Commission in accordance with section 36 of the Public Finance Management Act, 1999 ("PFMA"). The functions of the accounting officer are in line with the responsibilities in terms of section 38 of the PFMA.
- 3.29. The accounting officer is in term of Section 40 of the PFMA is responsible for the submission of all reports, financial statements, notices and other information which he or she must compile and bring to the executive authority's attention for approval before submitting the report to National Treasury, Auditor-General, Parliament or any other external body or institution.

- 3.30. The Commission will operate its own bank account and its annual budget will comprise of monies appropriated by Parliament for its purpose and monies received as donations or grants, or management fees charges on an actual cost recovery basis on specific projects which may be conducted on the request of a state institution. Applicable rates in this regard will be published in the Gazette.
- 3.31. This is required as the Commission will implement its mandate in respect of public entities and local government on an incremental scale, based on availability of resources. The Office of the Public Service Commission will be migrating into the Commission's Secretariat with its current budget and this provision will be utilised by the Secretariat. An additional budget on an incremental basis will be required for the implementation of the extended mandate to public entities and local government.
- 3.32. Clause 19 provides for legal proceedings by or against the Commission. It provides that the Commission is a legal entity that can sue and be sued. The State Liability Act, 1957 (Act No. 20 of 1957), applies to the Commission.
- 3.33. Clause 20 provides for the Commission's power to make rules by notice in the *Gazette* in relation to grievances, complaints, the issuance of summons, fees payable for services that the Commission may render, and other matter permitted to be regulated under a rule.
- 3.34. Clause 21 provides for the repeal and amendment of laws.
- 3.35. Clause 22 provides for transitional arrangements applying to the Commission.
- 3.36. Clause 23 provides for the short title and commencement of the Act. The clause provides for the President to fix the date of commencement of the Act by Proclamation in the *Gazette*. The President is further empowered to determine different dates to ensure a progressive phasing in of implementation of the mandate of the Commission in relation to—
- municipalities or categories of municipalities; and
 - public entities or categories of public entities.

4. ORGANISATIONAL AND PERSONNEL IMPLICATIONS

- 4.1. It is anticipated that there will be no additional organisational and personnel implications for the Commission with the current organisational structure migrating into the newly established Secretariat of the Commission. This will be done through a function shift of the existing Office to the Secretariat, inclusive of existing resources and budget with no change to the organisational design or staffing number.
- 4.2. When the mandate of the Commission is implemented to include the grievance management, complaint management, monitoring and evaluation of municipalities and public entities at the local government level and national and provincial government level, the Commission will require additional human resources. During the early phases, new work in relation to municipalities and public entities may be managed through reprioritisation of existing resources. A progressive implementation plan will be put in place.
- 4.3. Additional financial and human resources may be required where relevant for the anticipated growth of the post establishment of the Commission Secretariat and will be dependent on approval of additional budgets. The extended mandate may be implemented by utilising temporary staff or resources on a project basis, until the Secretariat is sufficiently well-resourced to implement its full mandate in the municipalities and public entities.

5. FINANCIAL IMPLICATIONS FOR THE STATE

- 5.1. The business case argues for a function shift of the existing Office to the Secretariat, inclusive of existing resources and budget. There will be preparatory actions and systems development needed to cater for the move away from the public service and use of associated transversal systems where available. The projected capital budget increase in the first year of the establishment of the Secretariat is costed at R15 780 960 and financial resources will be sourced internally.
- 5.2. Once the Bill is enacted into law, the mandate of the Commission will be reinforced and extended in terms of local government and public entities. An additional Branch has been added on the budget structure, namely, Programme 5: Provincial Operations to ensure effective coordination of operations for the execution of the Commission mandate at provincial level.

The baseline costing of the PSC Bill in the MTEF is as follows:

Economic classification	2024/25 Baseline R'000	2025/26 Baseline R'000	2026/27 Baseline R'000
Compensation of employees	84 194	89 245	94 600

Total economic classification	128 040	118 994	126 134

Outcomes: the specific changes in participants (i.e. beneficiaries) behaviour, knowledge, skills, status and capacity:

- 5.3. The anticipated cost for the implementation of the Commission mandate at the municipalities and public entities will be relevant to the anticipated growth of the Commission post establishment as a Constitutional Institution and will be dependent on approval of additional budgets.
