www.jutapharmapedia.co.za

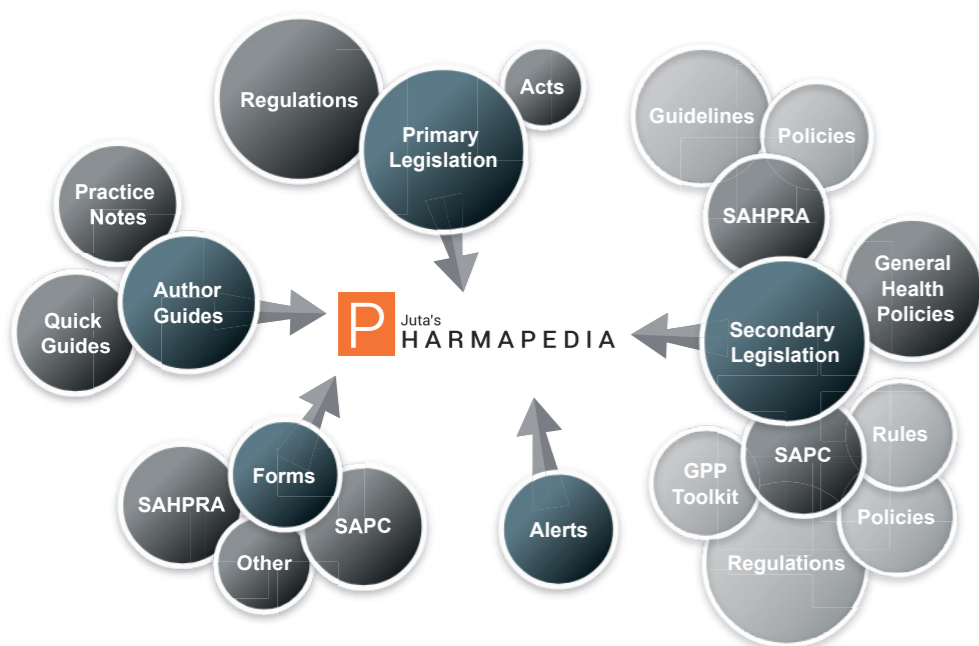

South Africa's *most comprehensive research tool* for Pharmacy and Health Products Regulation.

Pharmapedia is a ground-breaking online solution to medicines and pharmacy regulatory compliance developed for those who negotiate a complex array of health products and health professions legislation, guidelines, regulations, rules and policies.

Pharmapedia integrates the vast and complex array of health products and health professions legislation, together with guidelines, regulations, rules and policies from the South African Health Products Regulatory Authority (SAHPRA), South African Pharmacy Council (SAPC) and the South African Health Professions Council (SAHPC) into an all-in-one practical regulatory toolkit.

In addition, subscribers receive a free *Pharmacists' Compulsory Legislation Handbook* containing the legislation that pharmacists need to comply with the legal requirements of the South African Pharmacy Council (SAPC).

Pharmapedia and the complimentary Pharmacists' Compulsory Legislation Handbook meet the SAPC legal requirements as stipulated in the Good Pharmacy Practice (GPP):

HOW WILL IT HELP YOU?

Pharmapedia covers all aspects of the control of registration, manufacture, distribution, storage and dispensing of medicines, medical devices, in-vitro diagnostic products and scheduled substances, as well as provisions for licensing and conducting pharmacies, dispensing facilities and pharmaceutical companies.

It collates the Pharmacy Council, Health Professions Council, Medicines Control Council and other guidelines, intuitively cross-referenced under subject headings, processes and themes for ease of use.

In addition to the regulatory information, *Pharmapedia* includes Val Beaumont's useful Practice Notes and Quick Guides which consolidate the guidelines and clarify the implementation of legislation and compliance requirements. These range from manufacturing and promotion to advertising, generic substitution, wholesale, distribution, prescribing and dispensing and pharmacy best practices.

Detailed indexing and extensive cross-referencing takes *Pharmapedia* from a compulsory text book to an empowering compliance solution.

Pharmapedia subscription offers

Three affordable packages allow you to access content according to your needs and budget. Industry and policy guidelines and documentation are incorporated as a free value-added service. Available in both single-user and multiple-user options.

KEY FEATURES AND BENEFITS

Mitigate your compliance risk

Meet your legislated and regulatory obligations with consistent online access to the up-to-date Acts, regulations, guidelines, rules and policies.

Taking the complexity out of compliance

Get clarity on the confusing layers of legislation and policies with Practice Notes and Quick Guides, empowering guidance tools that will simplify your day-to-day legal compliance management.

Your smart one-stop guide to finding answers

Link seamlessly and intuitively between the vast array of highly regulated health professionals and health products legislation and policy documentation.

Stay up-to-date with accurate content

Pharmapedia is continuously updated for reliable content at your fingertips — no filing up of annual loose-leaf update supplements required!

Accessible anytime, anywhere

Pharmapedia is accessible on your PC, laptop, tablet or smartphone via the internet.

More content, choice and value!

Three affordable packages allow you to access content according to your needs and budget. Industry and policy guidelines and documentation are incorporated as a free value-added service.

ABOUT THE MANAGING EDITOR

Val Beaumont, M.Pharm (Industrial Pharmacy), FPS, has specialised in industrial pharmacy and has extensive practical experience in regulation and compliance across the broad pharmaceutical arena. She is the Executive Officer of the Marketing Code Authority for the ethical marketing of health products and consults to the health sector on strategic, regulatory, policy, ethics and technical matters related to medicines. Her contribution to the profession of pharmacy has been acknowledged through the award of Fellowship of the Pharmaceutical Society of South Africa.
