About this Publication:

Jurisprudence is a comprehensive treatment of the subject by many of the legal theorists in South Africa. Each of the major schools of jurisprudence, as well as a number of the major issues in jurisprudence, are discussed in a sophisticated yet accessible style. Each of the schools is assessed for its relevance to South Africa and South African law. Further, Jurisprudence provides the reader with an introduction that contains a meta-theoretical approach and set of tools for systematically evaluating the many and various theoretical claims found within the book and in the subject more generally.

Contents Include:

- Mapping jurisprudential terrain in search for truth in law
- Natural law theories
- Legal positivism
- Third path theorists: between positivism and natural law
- Historical jurisprudence
- · Marxism and the law
