About this Publication:

This volume brings together papers given at a workshop held in Cape Town in March 2008 – a joint venture between the New York University Law School and the Faculty of Law at the University of Cape Town. The papers critically explore the concept of Global Administrative Law in theory and its relevance to developing countries, the efficacy of regulatory regimes focused on international trade and finance, and recent developments in the crucially important area of intellectual property law.

Contents Include:

Opening Address - *Trevor Manuel*
