About this Publication:

Environmental Law provides a comprehensive and succinct examination of the entire environmental law landscape in South Africa. The second edition includes a new chapter on climate change, and also examines the following recent developments: the new environmental impact assessment (EIA) regime (2010 regulations); several amendments to the National Environmental Management Act and other environmental legislation; the new National Environmental Management: Waste Act; the new National Environmental Management: Integrated Coastal Management Act; several important developments in delegated legislation; and numerous new cases, including the far-reaching *Fuel Retailers* decision in the Constitutional Court.

Contents Include:

- Introduction
- The Constitution and framework environmental legislation
- International environmental law
- Water law and the environment
- Conservation of biodiversity
- Pollution control and waste management
- Land use and planning
- Implementation and administration of environmental law
- Environmental justice: a South African perspective
- South Africa's position on climate change
- CD-ROM containing important environmental legislation and leading cases
