About this Publication:

Administrative Law in South Africa takes full account of South African administrative law with the emphasis on judicial review of administrative action. The second edition has been thoroughly updated with all case law from the end of 2006 to 2011. This edition retains the comprehensiveness, clarity and accessibility of the first edition.

Review of the first edition in *Stellenbosch Law Review*:

"With the significant expansion of its discussions and the increased depth of its analysis, [*Administrative Law in South Africa*] will undoubtedly continue the work's ascendancy as one of the premier sources on general administrative law in South Africa. I am glad to note that the book is well on its way to live up to the expectation I raised ... that it will become the equal in our new administrative law of Baxter in the 'old administrative law'."

Contents Include:

- Preface
- Table of cases
- Introduction to administrative law
- The control of administrative power
- Judicial review
- Administrative action
- Lawfulness
- Reasonableness
- Procedural fairness
