## About this Publication:

*The Role of Standards in Labour & Social Security Law* examines international standards, their interrelationship, and their interaction with national labour law, social security systems and regional regimes. The book approaches this vast subject from a number of different thematic and geographic perspectives, and focuses on specific areas that exemplify the key issues under discussion.

*The Role of Standards in Labour & Social Security Law* reflects on the relevance and limitations of international standards and also highlights the importance of a human rights approach and the role of private actors in the protection of labour- and social security rights.

The editors and authors of this compilation are internationally renowned experts in the field, and represent a variety of regions and perspectives. In particular, the book represents important voices and perspectives from the developing world, notably the African continent.

*"The overall subject is most salient, and while assembling a multitude of different individual topics and perspectives, the book still offers a very coherent framework. The individual contributions ... offer informative accounts of recent developments, others inspiring reflections on long-term debates. The book is likely to become a valuable resource, both for experts in the field and for those seeking an "international standards-related" perspective on the many individual social policy aspects addressed."*

**Prof. Alexander Graser - Lehrstuhl für Öffentliches Recht und Politik, Universität Regensburg**

## Contents Include:

International perspectives

- International labour standards: A complex public-private policy mix
- International labour and social security standards: A developing country critique
- The Social Protection Floors Recommendation 2012 (No 202): The human rights approach to social security in ILO wrapping paper

- Co-ordination of social security schemes: The case of SADC
- The challenge of regional social security co-ordination: The case of the Ibero-American Multilateral Agreement
- Social security, gender and legal plurality: Challenges to harmonisation in SADC
- The failure of the Minimum Age Convention to eradicate child labour in developing countries, with particular reference to SADC
- Children's rights and child labour from a global, African and SADC law perspective
- EU health and safety law: Improving standards for young workers  
National perspectives
- Retirement reform in South Africa: The influence of international social security standards and human rights instruments
- Protective or disruptive social security? Burial societies in Ethiopia and Zimbabwe
