About this Publication:

Community Psychology: Analysis, context and action contains a rich diversity of insights and critical debates on the key theoretical, analytic, teaching, learning and action approaches in community psychology.

The book's supplementary electronic resources encourage innovative, interactive teaching and learning. The CD includes slides for each chapter and a fully searchable i-book and lecturer's support material available on our website.

Contents Include:

The book offers an incisive examination of a range of contextual factors that influence the practice of community psychology, including:

- poverty
- HIV/Aids
- homelessness
- ethics
- healing practices
- and racialised patterns of health and violence.

Of Interest and Benefit to:

Community Psychology: Analysis, context and action represents a timely contribution to the field of community-based theory and practice. As such, it will undoubtedly prove to be a valuable tool for community psychology students, lecturers and practitioners in South Africa and elsewhere.
