## About this Publication:

*Accounting for All* will help first-year students master financial accounting and cost accounting especially in courses where these are not major subjects. The content is accessible in that it is written in an easy to understand manner, which enables students to work through each chapter independently.

The teaching methodology takes a step-by-step approach and is supported by extensive explanatory examples and revision questions. *Accounting for All* will benefit any student who requires a fundamental understanding of financial accounting and cost accounting principles and concepts, as it applies to the world of business.

## Contents Include:

Chapter 1: Basic concepts in accountancy – the accounting process

Chapter 2: Business transactions and source documents

Chapter 3: Recording transactions – double-entry system

Chapter 4: Introduction to VAT

Chapter 5: Books of prime entry

Chapter 6: Bank reconciliation statements

Chapter 7: The trial balance

Chapter 8: Property, plant and equipment

Chapter 9: Inventory

Chapter 10: Year-end adjustments

Chapter 11: Financial statements of a sole trader

Chapter 12: Financial statements of companies
