Format: Soft Cover
Number of Pages: 632
Retail price: R982.00 (incl. VAT, excl. delivery.)
Website Link: juta.co.za/pdf/24030/

About this Publication:

A proper understanding of the law of contract requires far more than the mere rote learning of principles extracted from cases. Contract law is a practical subject and students will understand it best by applying contractual principles to practical, life-like scenarios.

Student's Guide to the Law of Contract fosters such an approach. It is filled with examples, exercises and problem-setting questions that increase gradually in level of complexity. This will facilitate discussion in study groups and during lectures. Spaces for the completion of exercises and summaries of prescribed cases enable students to engage actively with the learning material in one basic source.

Student's Guide to the Law of Contract can be used by lecturers as a primary teaching tool for undergraduate students to improve their students' knowledge and understanding of basic contractual principles, develop their ability to reason and stimulate their interest in the subject. Likewise, students will find it useful as an aid additional to lectures and more advanced contract law textbooks.

About the LegalEase series

The *LegalEase* series makes the law easier to understand without losing the context in which it operates. *Elements* books are practical workbooks or reference tools that support students in the study of the law. These books offer a quick and easy entry into the world of law, providing clear and reliable explanations of all major concepts in law. The *Elements* series can be used with prescribed handbooks and sourcebooks, and can serve as study enhancements when students prepare for tests and examinations.

Available 10 December 2015.
