About this Publication:

Part of the *Juta's Property Law Library* series, *Land Reform* covers all legal developments spanning the first phase or exploratory land reform programme that was embarked upon in 1991, followed by the all-encompassing land reform programme that coincided with the constitutional dispensation, until July 2013.

Land reform is approached with reference to its various contexts, drawing the broad categories of state land and private land that are further subdivided into urban and rural contexts, where relevant. All relevant legislative measures and policy documents are set out and major court decisions are analysed accordingly.
